

# A GOOD IDEA FOR THOSE IDEAS THAT SEEMED GOOD AT THE TIME.

Introducing the SnoWinch™ 1.5. The first winch recovery system built for snowmobilers. It is easy to rig and pulls any battery-powered snowmobile from the front, or rear. Comes with everything a rider needs, including 40' of synthetic rope that stays flexible in the cold. All in a custom kit with WARN bag that weighs only 15 lbs. Hit the trail with the WARN SnoWinch.
